

About GLASSGUARD™

GLASSGUARD™ is a permanent protective bonding agent that becomes part of the entire glass surface itself. This two-step process is factory applied to all sides of the glass using a state-of-the-art environmentally controlled vapor fusion chamber.

It is a true breakthrough in shower glass protection acting much like a non-stick coating on a pot or pan. GLASSGUARD™ dramatically reduces the time and effort required to clean your shower glass. While shower glass will still need to be cleaned from time to time, GLASSGUARD™ makes the job much easier!

GLASSGUARD™ Care & Maintenance

For Best Results Daily:

Rinse the shower enclosure with clean, cool (not hot) water and wipe down any remaining droplets.

If desired, dry with a microfiber towel for a clean, spotless shine.

Once A Month:

Wet the shower enclosure and use a nylon body puff to go over the surface until clean and smooth. Then rinse with clean, cool water (not hot) and wipe dry with a microfiber cloth.

If desired, the following products can be used on GLASSGUARD™ treated surfaces:

- **White household vinegar diluted with water (1:2 ratio)**
- **SprayWay® Ammonia-Free Glass Cleaner**
- **Seventh Generation™ Natural Glass & Surface Cleaner**
- **Simple Green®**
- **Ammonia Free-Windex®**

GLASSGUARD™ Care & Maintenance Continued...

If you haven't followed the Basic Manufacturer Maintenance recommendations as often as indicated:

The Consumer Maintenance kits can be used to bring back your GLASSGUARD™ Diamon-Fusion® coating to like new performance.

Without periodic cleaning, water spots will eventually appear. Hard water conditions may build up requiring more frequent cleaning; however, these spots are easily removed with cool water and a nylon mesh puff.

Occasional application of GLASSGUARD™ Revitalizer restores the full hydrophobic action to GLASSGUARD™ treated surfaces; plus, has the added benefit of protecting metal, vinyl, and plastic portions of the shower enclosure. Stubborn build up can be removed using our Ultimate Hardwater Stain Remover, "glass safe" scrubber pad, and GLASSGUARD™ Revitalizer; thus, restoring the glass to its original easy to maintain condition.

Follow labels as instructed, a very small amount goes a long way!

Consumer Maintenance Kit

- 16 oz. Bottle Revitalizer
- (3) Restoration Powder NanoPax®
- Nylon Cleaning Puff
- White Scrubber Pad
- Microfiber Towel

4 oz. Revitalizer Bottle

- Revitalizes & Protects GLASSGUARD™ Treated Surfaces
- Seals & Protects Glass, Porcelain & Ceramic Tile
- Prevents Mineral Build-up
- Restricts Soap Scum & Spotting

Express Care Kit

- Nylon Cleaning Puff
- White Scrubber Pad
- Microfiber Towel
- (5) Revitalizer NanoPax®
- (1) Restoration Powder NanoPax®

GLASSGUARD™ Warranty

GLASSGUARD™ surface protection offers a limited lifetime warranty to the original consumer purchaser when maintained according to manufacturers recommendations; not to flake, peel, discolor or change the appearance of the surface to which it is applied.

GLASSGUARD™ is guaranteed to permanently protect the glass surface and improve the hydrophobic characteristics, to make cleaning easier. GLASSGUARD™ will resist the effects of weathering and remain visually transparent when the manufacturer's proper maintenance guidelines are followed. The hydrophobic action can be maintained with normal water cleaning, and by using GLASSGUARD™ revitalizer spray. Revitalizer is available to the consumer through our dealer network to enhance or restore the hydrophobic properties portion of GLASSGUARD™, as needed.

GLASSGUARD™ is designed to protect surfaces from damaging environments, and to reduce maintenance time. GLASSGUARD™ will not eliminate cleaning, maintenance, or spotting, but will dramatically reduce the time, effort and chemicals needed to keep glass surfaces looking new.

Limitations: The GLASSGUARD™ limited warranty covers replacement glass provided from the manufacturer only, or a refund of the original sale price only, at Studio G's option. All parts replaced under the terms of this limited warranty are F.O.B. Studio G and it does not cover breakage, scratching, labor or incidental or consequential damages.
